

# Pravi Jain

## Full-Stack Developer

### About Me

As a Full-Stack Developer with hands-on experience, I specialize in developing cutting-edge websites and applications using the latest technologies. Proven ability to troubleshoot software issues efficiently and craft innovative solutions, ensuring seamless user experiences and robust functionality.

### Projects

E-Comm Website

*Developed a fully functional e-commerce website with features like product listings, search functionality, and shopping cart integration.*

- Used React.js for the front-end and Node.js for the back-end.
- Integrated a MongoDB database for user and product management.

Weather App

*Built a weather application to display real-time weather data based on user input.*

- Utilized OpenWeather API for fetching weather data.
- Implemented responsive design for compatibility across devices.

To-Do List

*Created a dynamic to-do list application to manage daily tasks effectively.*

- Used React.js for interactive UI and state management.
- Implemented local storage to save tasks between sessions.

E-Comm Webpage (Myntra Clone)

*Designed a visually appealing clone of the Myntra website.*

- Focused on front-end development using HTML, CSS, and JavaScript.
- Ensured responsiveness and cross-browser compatibility.
